The screenshot shows a software interface with a top navigation bar containing buttons for 'Search', 'List', 'Browse', and 'Query'. Below this, there are two buttons: 'DBs' and 'Plurals'. A label 'Default operator' is followed by a radio button (which is selected) and the text 'highlight all hit terms initially'. The main area of the window is a large, empty rectangular box with a vertical scrollbar on the right side. At the bottom of the window, there is a taskbar with icons and labels for 'BRS form', 'IS&R form', 'Image', and a small icon with a left-pointing arrow.
